

How to submit your homework from Eclipse

1. When you finish the project, make sure you give the right package name:

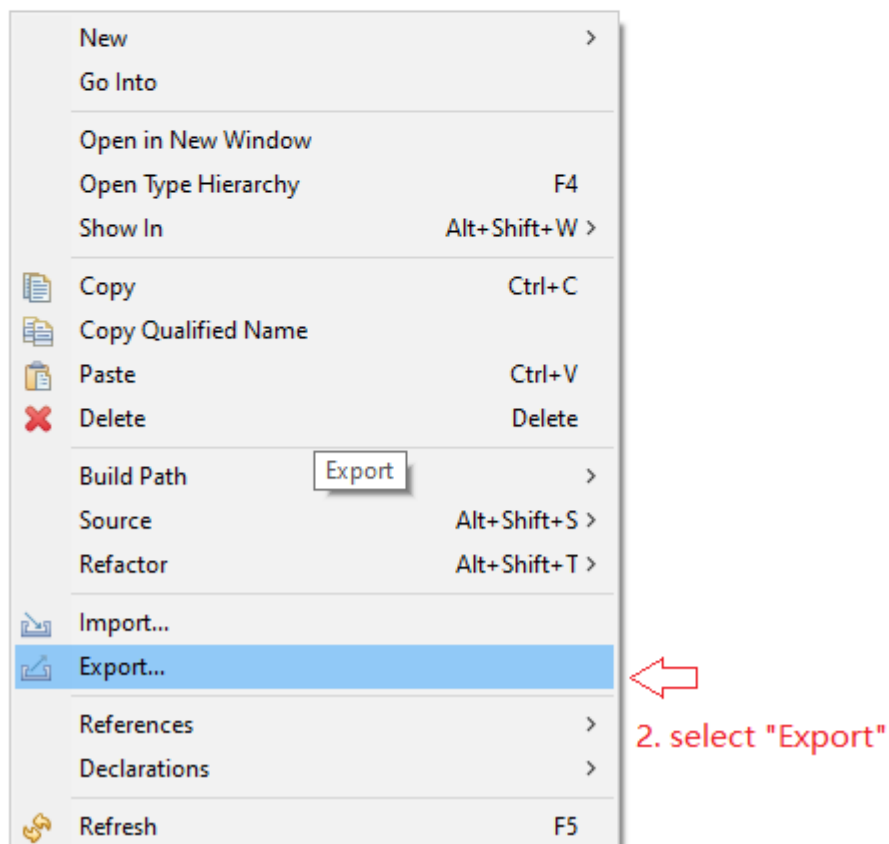

`edu.iastate.cs311.hw2`

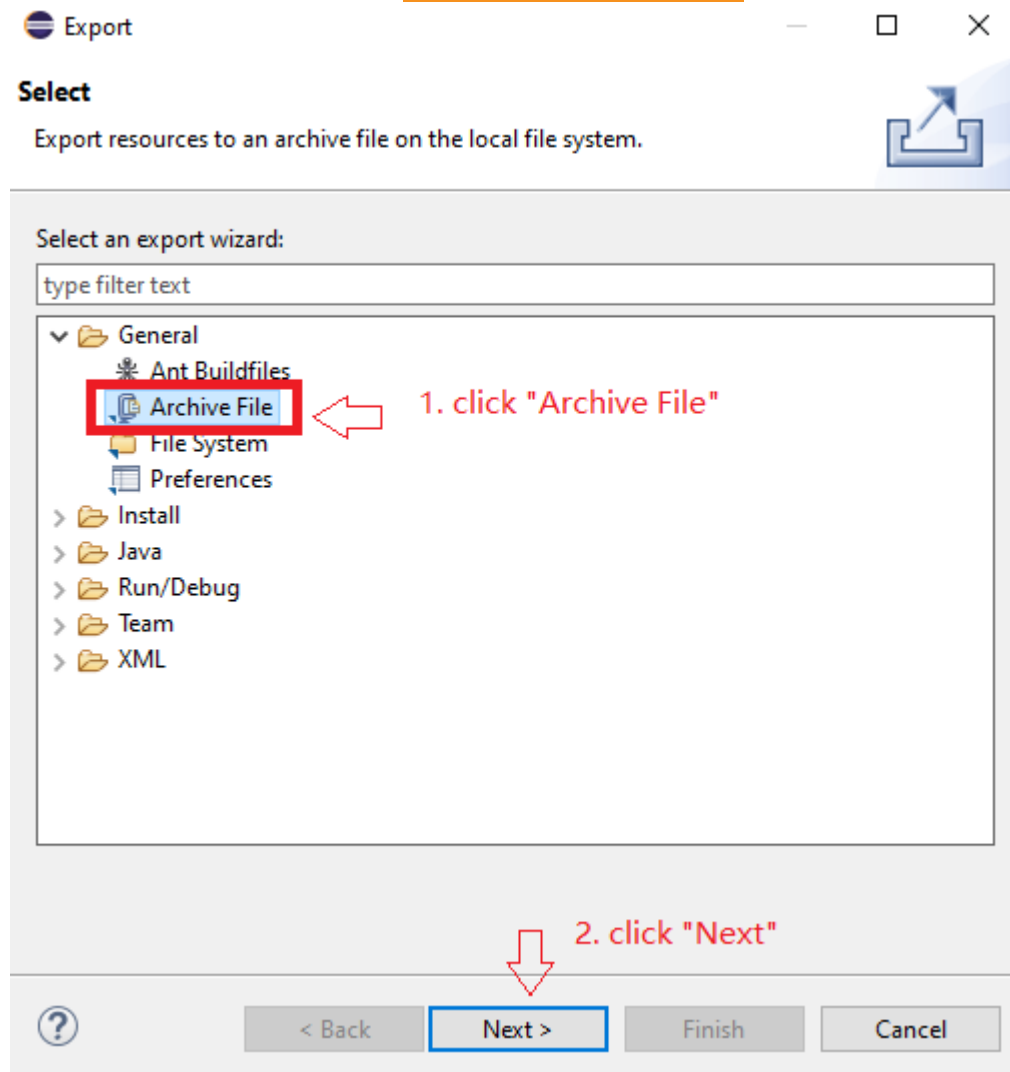

2. Right click on the "Package Explorer" Panel, and click "Export".

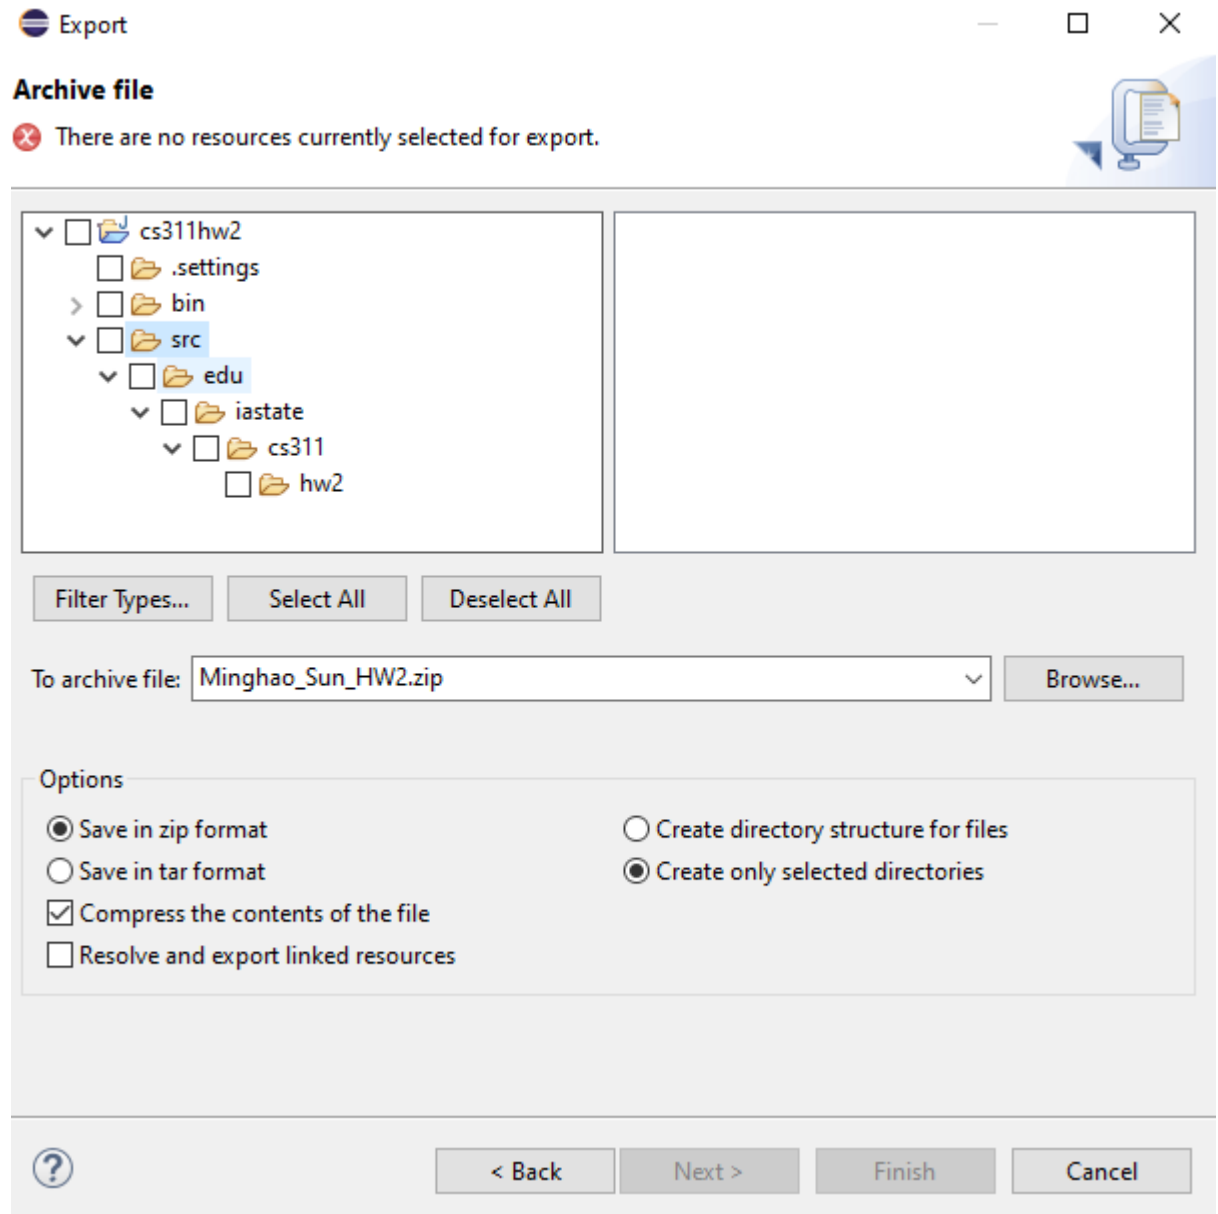

1. Right click on the panel

3. In the Export window, click **General → Archive File**. Then click "Next".

4. The Archive file window show as here:

5. 1) Click "Deselect All" and open "Src" and select **edu**. (Do not select bin). Make Sure there are .java files.
2) Save the zip file with your FirstName.LastName_HW2.zip.
3)In Options, left side click " Create only selected directories".
4)In Options, right side only select "Save as zip format".
5) Click Finish. After you export your .zip file, please double check your sub-
mission.
